EDUCATION

BS(Hons.) Computer Science.
University of Education.

08/2021 - Present   CGPA 3.44

Courses

- Programming Fundamentals.
- Data Structure & Algorithm.
- Software Engineering.
- Object Oriented Programming.
- Database Management System.
- Web Engineering.

Intermediate.
Govt. Islamia College Civil Lines.

08/2019 - 06/2021   1052/1100

Matriculation.
C.D.Govt. Boys School.

06/2017 - 07/2019   1005/1100

WORK EXPERIENCE

Internship
Tech Vergex.

05/2023 - 07/2023   Lahore

Achievements/Tasks

- Implement the visual design of web pages by translating mockups into HTML and CSS code, ensuring responsiveness.
- Develop interactive elements and dynamic features using JavaScript, such as form validation.
- Acquired valuable experience in API integration during internship, mastering the art of fetching and displaying dynamic data from external sources.
- I learned the version control git and github.

SKILLS

JavaScript/TypeScript · Node · Express · React · Tailwind/Bootstrap/Daisy Ui · SQL/MySQL · HTML CSS · Firebase · Linux · Git/GitHub · Problem Solving · SDLC · Context Api · Zustand/Redux Toolkit · Tanstack Query · React Router Dom · REST APIs · Axios · API Integration

PERSONAL PROJECTS

GameHaven(React Typescript, Chakra UI, Tanstack Query, React Router Dom, Zustand, Axios, Rawg Api) (11/2023 - Present)

- Successfully integrated the RAWG API to fetch real-time gaming data, ensuring the platform stays up-to-date.Implement Infinite Scroll Feature using React Query
- Engineered a robust search mechanism allowing users to find games based on various criteria, including platforms, and genres.
- Leveraged ChakraUI components for a polished and responsive user interface, enhancing the overall visual appeal and user experience.
- Site Live
- github

Snapgram (React/TypeScript, React Router Dom, React Query, Appwrite, Shadcn UI, React Context Api) (05/2024 - Present)

- Implemented secure user authentication and authorization, showcasing expertise in Frontend development.
- Integrated Appwrite for backend services, ensuring efficient data management and scalability.
- Designed sleek and responsive user interfaces with Shadcn UI, enhancing the platform's visual appeal and user experience and use React Query for caching and implement infinite scroll.
- github link

ChatApp (ReactJS, Tailwind, React Router Dom, Firebase) (05/2024 - Present)

- Implemented Firebase authentication for secure user login and registration, ensuring data privacy and integrity
- Utilized Firebase Firestore for efficient storage and synchronization of chat messages, providing a smooth and responsive user experience
- Site Live

ACHIEVEMENTS

I've solved 100+ questions on LeetCode
